

Girbaa Tech

Transforming AEC with technology

Architects | Developers | Engineers | Contractors | Consultants | Facility Managers

Consulting & Training

Project & workflow optimization
Technology adoption

BIM

3D Modeling, Scan to BIM
Clash Co-ordination

Project Management

Planning & Scheduling
Risk Management
Budgeting & Cost Control

AI, Plugins & Automation

Co-pilots, Design automation
Building Code Validation

Data Management

Real time dashboards, Custom reports
Model health Dashboards

CAD & Visualization

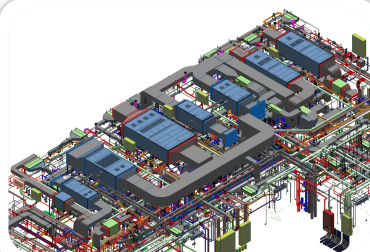

Drafting & Detailing, Renders
Walkthroughs & Animations

VDC

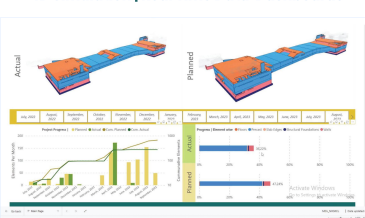

4D Simulation
5D Quantity take off
Immersive AR/VR

Digital Twins

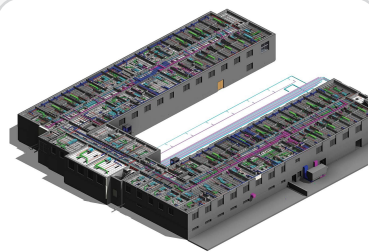

Lifecycle management
Predictive maintenance & operations

4D Simulation | Real Time Data Dashboards

Model Health Dashboard

Focus Areas

Residential

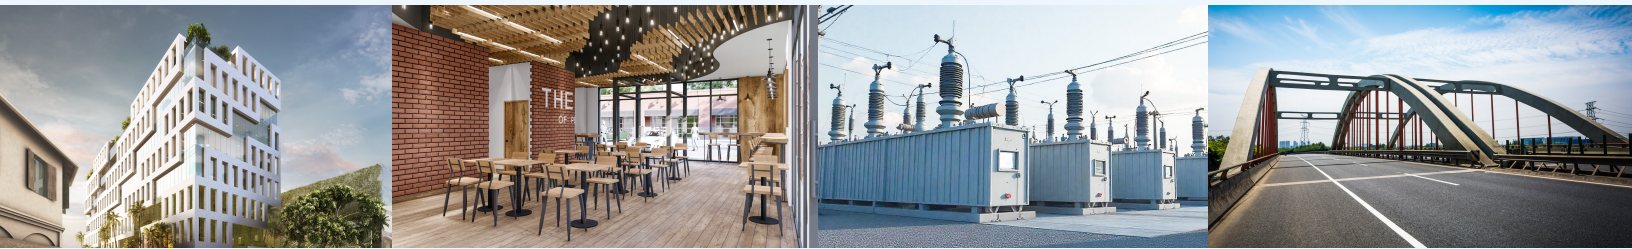

Simplifying design processes with advanced tools and coordination.
Improving efficiency and ensuring seamless transitions to construction.

Commercial

Optimizing design workflows with digital solutions and automation.
Facilitating smoother planning and execution across all stages.

Infrastructure

Enhancing design precision and efficiency with digital workflows.
Streamlining collaboration for effective project execution.

Work Models

Project

Custom solutions at a Fixed-cost

Resource

Subject Matter Experts on-demand

Studio

Dedicated team like your own

Testimonials

Girbaa is a reliable partner we can count on to support our engineering team throughout any stage of a project lifecycle.

Project Engineer - Engineering company, NL

Girbaa Tech was able to create beautiful renderings from our drawings to show us what the final product would look like. We're very satisfied with the provided renderings and were able to easily make final selections.

Project & Operations Manager, Renovation Consultant, ON

Girbaa's Promise

Tailored Solutions

Customer-Centricity

30+ years of Experience

Flexible Work Models

Global Projects

Quality Excellence
